

NSSDC Status

Dave Williams, Pat McCaslin, Stef McLaughlin

PDS Management Council

UCLA

27 August 2014

PDS Delivery Status Overview

- Volume submittals
 - 148 volumes submitted since last MC
 - ~8% did not comply with PDS3
 - ~8% had Volume ID+Version conflicts
 - Resolved quickly after node interaction
- Data ingest and archive – no reported problems
- Four nodes have made deliveries since last MC
 - Atmospheres: 4 electronic deliveries
 - Imaging: 1 network attached storage delivery
 - PPI: 1 electronic delivery
 - PSI: 2 USB device deliveries, 1 electronic delivery

Network Attached Storage Delivery Status

- NAS received by NSSDC in July
- NAS suffered disk failure
- Disk replaced, array rebuilt with no data loss
- Patches performed to make system current
- Mandatory virus scans run on both of the NAS volumes
- Mandatory GSFC security scan and vulnerability rectification in process
